

Feedback from the Pre-Proceedings event 9th May 2019

Question: *What was the main thing you took from the presentation?*

Review/timelines

Lots of ideas to take back to my LA and the local FJB quality circle. Want to look at development of our practice during PLO phase

The joint up working from the afternoon presentations from Stockport Swift

Really positive discussion and shared values of experience and space to consider the issues

The variety of positive work, importance of communication and language used

Listening to lots of perspectives

Parents being represented

the framework and how we are where we are

The intervention programmes and different way other authorities work in the process and the LGM

Future work and understanding of other agencies and what they are doing

Local innovation - very excited about sharing practice

Shared good practice

Question: *Other Comments*

Information sharing, learning for mother professionals and disciplines

Thank you very much

The different views from different professionals was invaluable, and a joint view re the pre-proceedings process should change and become more collaborative and seen as an opportunity from change

I thought it was thought provoking. I felt that the event was really balanced with a variety of speakers bringing in various perspectives, group discussions and panels. Venue was accessible and well run

Good overview giving food for thought on key issues. Interesting to hear what some areas are trialling

Very well thought out event and a good cross section of attendees

Discussion time is always useful - maybe fewer speakers or pre-reading to enable longer discussions

Thank you to everyone who provided feedback for the event!
